## SUSTAINABLE PERFORMANCE

Fashion and Sportswear are under pressure to move towards sustainable and circular materials

### PROBLEM

- 50 years of reliance on fluorinated - forever - chemicals (PFAS) for performance
- Bans of toxic and persistent fluorinated - forever - chemicals
- Quick adaption necessary (PFAS ban in NY starting in 2024)
- Consumer demands and corporate pledges on Sustainability and impact
- Current alternatives are not performant enough
- Circularity regulations in EU Green Deal

We ARE the next generation of waterproof breathable fabrics.  
dimpora is a B2B ingredient brand for outdoor apparel.

### SOLUTION

Our patented platform technology:

- PFAS-free
- Circular: Recycling, bio-based, biodegradable
- Plug and play on existing machinery: No CAPEX required
- -96% CO2 reduction by avoiding solvents

Working with leading brands:

- 2 Commercial products marketed
- Collections launched
- Reordering clients
- Prototyping with the largest players

### OUR STORY

- Founded by [Anna Beltzung](#) & [Mario Stucki](#)
- ETH Zürich Spin-Off incorporated 2019
- Patented & award-winning Technology
- Team of 11 employees (7 nationalities, >70% female)
- Based in Zürich, operating internationally

FASHION
